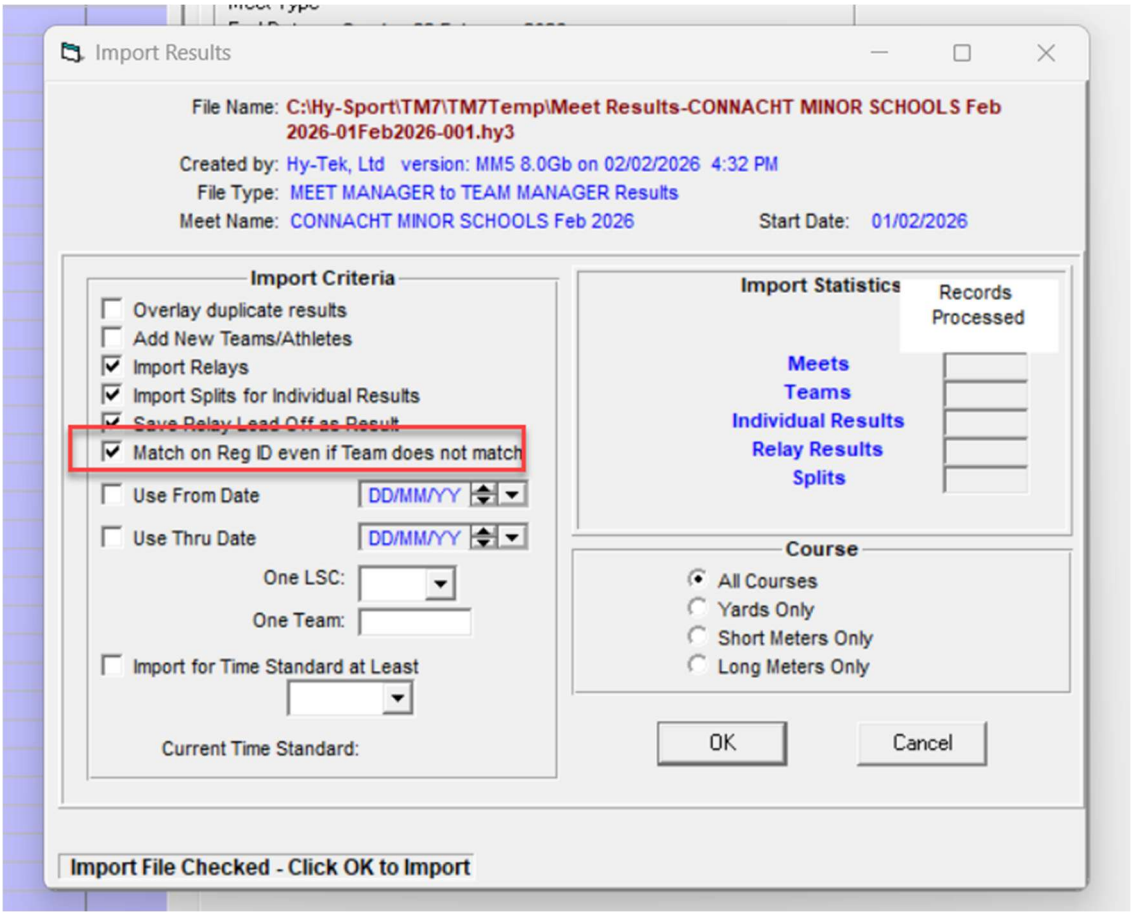
ADVICE FOR UPLOADING RESULTS TO TEAM MANAGER

The results are up on the website.

[Records, Rankings & Results - Swim Ireland]

Swim Ireland Club Member Swimmers where instructed that they should enter their Swim Ireland Membership Number during the entry process in order to ensure that their times achieved could be considered for future

Clubs can download the Hy-tek event file available on the Results page and then download and import the results as per usual. As this was a school meet, swimmers will not have their clubs listed in the official results, however, Hy-tek Team Manager can match their Swim Ireland membership number (ID) with club swimmers in the club database.

Clubs please ensure the highlighted tick boxes are selected when importing results to ensure that this happens.


Once the swimmer entered with the correct SI number and the club has the SI number for the swimmer it will match the results.
